TECHNICAL SKILLS

Front-end: HTML, CSS, JavaScript, React.js.

Programming: Python

LANGUAGES

English - Professional,

Tamil - Native.

AREA OF INTEREST

Artificial Intelligence, UI/UX,
Web Development.

PROFESSIONAL SUMMARY

Frontend Developer with an MCA background and hands-on experience in building responsive web applications and real-world projects like an Invoice Management System. Skilled in HTML, CSS, JavaScript, React.js, and MySQL, with a strong focus on clean UI, performance, and user experience. Eager to leverage technical and soft skills in a dynamic IT environment.

MINI PROJECT

Invoice Management System

- Designed to optimize the operations of service centers.
- This innovative platform provides a seamless and efficient way to manage workflow, streamline administrative tasks, and enhance customer satisfaction.
- Reducing manual work, improving service delivery, and increasing operational efficiency.
- Built using PHP, MySQL, HTML, and CSS.

MAIN PROJECT

Numeric Data Prediction for Stock Market

- Built a stock price prediction system using ensemble ML and deep learning models (LSTM, GRU, RNN) on high-frequency financial data
- Applied feature engineering with lag variables and cyclical patterns for time-series forecasting
- Developed an interactive dashboard using Streamlit and Plotly for real-time insights

Tech Stack: Python, PyTorch, Scikit-learn, Pandas, NumPy, Streamlit, Plotly

CERTIFICATIONS

HTML Training - Spoken Tutorial Project, IIT Bombay

Python Training - Spoken Tutorial Project, IIT Bombay

GIT Training - Spoken Tutorial Project, IIT Bombay

COURSE

Front-End Development - Ability Fusion Institute, 2025
