PROFESSIONAL SUMMARY

Passionate and detail-oriented Master of Computer Application graduate with a strong foundation in software development and business operations. Developed a functional Invoice Management System, Pursuing Front end development. Eager to leverage technical and soft skills in a dynamic IT environment.

PROJECT

Invoice Management System

- Designed to optimize the operations of service centers.
- This innovative platform provides a seamless and efficient way to manage workflow, streamline administrative tasks, and enhance customer satisfaction.
- Reducing manual work, improving service delivery, and increasing operational efficiency.
- Built using PHP, MySQL, HTML, and CSS.

WORK EXPERIENCE

Vehicle Finance Associate: Sundaram Finance Limited, Pondicherry,
Jan - Dec 2023 (1 year)

- I played a pivotal role in facilitating vehicle financing solutions to customers, ensuring seamless loan processing, and maintaining high levels of customer satisfaction.
- Throughout my tenure, I effectively managed a portfolio of vehicle loan applications, conducted credit appraisals, and provided personalized support to customers.
- Ultimately contributing to the growth and success of the organization.
